The 2003 White House Task Force Report on Disadvantaged Youth notes that despite the billions of federal, state, local and private dollars spent on needy youth and their families, many out-of-school, at-risk youth are currently being left behind in our economy because of a lack of program focus and emphasis on outcomes. In response to the White House Task Force Report, the U.S. Departments of Labor, Health and Human Services, Education, and Justice created an Interagency Work Group to ensure that the communication, coordination, and collaboration recommended by the White House occurs. Information on this new youth federal partnership is now available at [Shared Vision for Youth](#) Web site.
